Include a load calculation with your application showing the generator is sized properly for the intended loads. You will need to provide an additional hard copy of this calculation on site at the time of inspection, along with all manufacturer's installation instructions..

I am aware of all NC State Building Codes and City of High Point Zoning ordinances applicable to the installation of a generator, and to the best of my knowledge am in compliance. I also understand that by being granted an over-the-counter permit, no plan review will be completed prior to inspections.
