Fee Standards

Payment Due

Fees for applications and plan reviews are due with the submission of the application or plan. In accordance with the city's Development Ordinance, no action shall be taken on proceedings before the Board of Adjustment, Planning and Zoning Commission, Historic Preservation Commission or Technical Review Committee until all applicable fees have been paid in full. Permit fees are due at the time of permit issuance. Inspection fees are due prior to plan approval or certificate, as applicable. Regional stormwater facility fees are due prior to plan approval. Development fees cannot be waived or refunded except as authorized herein.

Fee Waivers

Development fees may be waived or reduced only as stated herein. Fee waivers do not relinquish the development from any application, plan review, permit or inspection requirements.

Development fees are waived for all projects applicable to any City-owned property. Fees may be waived for economic development projects as part of a City Council approved economic development incentives package. During times of natural disaster, the City Manager is authorized to waive fees for a particular emergency incident. The City Manager, or the applicable Department Director, is authorized to waive or reduce a fee where it is determined in writing that the calculation of the fee to a specific project results in an excessive and unreasonable cost or where it is determined that a fee waiver or reduction is needed to correct a customer service error. In addition, fees may be waived for a particular project by City Council action.

Refunds

Development fees are not refundable except as stated herein. Upon the request of the applicant, application fees for Board Action applications that require public notice is authorized for a 50% refund when the application is withdrawn prior to public notice being given on the request. Regional stormwater facility fees are not refundable unless the applicable land development plan is voided or revised accordingly and no impervious surface has been installed. Infrastructure inspections fees are refundable where infrastructure has not been installed. Upon the request of the permit holder, an 80% refund of the permit fee is authorized where no field inspections or construction under the permit has occurred and the permit has not expired. For all issued permits a minimum amount of \$75 is retained.

Abandonment

Development submittals are considered abandoned in accordance with the applicable provisions of the Development Ordinance. Where a specific time of abandonment is not established by the Development Ordinance, then those submittals may be considered abandoned 6 months after the date of submittal if approval is not obtained, or after 60 days for non-payment of application or permit fee.

Module 1 Guidance

Module I pertains to the application fees for the review of buildings and property to determine compliance with State and local codes. Fees are intended to defray the cost of research, inspection, report preparation and other operational costs the City incurs with processing these requests.

Applications		
Item	Sub-Item/ Description	Fee
Code Confirmation	Report	\$25
	Site Compliance Inspection	\$50
Code Compliance	Residential Building	\$50
	Commercial Building	\$75
Building Evaluation	Residential Building	\$200
	Commercial Building	\$0
Water and Sewer Extension Policy Exemption		\$100

Code Confirmations provide written reports for owners, agents and legal representatives to confirm in writing the property's allowable principal uses, zoning districts, environmental regulations, and any pending violations, usually requested as part of due diligence in real estate transactions.

Code Compliance provides an inspection and certification of the building and property's compliance with current State Building and local development codes, usually requested as part of State licensing and similar situations where a determination of a building's compliance with existing codes is requested.

Building Evaluations provides a multi-trade review of an existing building's condition relative to applicable State Building and local codes to identify deficiencies and record major code requirements relative to a proposed use of the building.

Water and Sewer Extension Policy Exemptions enable an owner of property located outside the corporate limits to request an exemption from annexation for City water and/or sewer service in accordance with City Council adopted policy.

Module 2 Board Action

Module II pertains to fees associated with the review of development applications considered by the City Council, Board of Adjustment, Historic Preservation Commission and Planning & Zoning Commission. Fees are intended to defray the cost of public notice, report preparation and other operational costs the city incurs with processing these applications.
